STAS on every wall

STAS picture hanging systems provides multifunctional hanging systems and hanging accessories for walls and ceilings.

We develop, manufacture and distribute safe and flexible hanging solutions for a wide range of wall objects. These can include both decorative objects (paintings, drawings) and practical items (whiteboards, coat hooks, mirrors). Many of our products are patented and have been awarded prizes.

Our goal is to offer people freedom as they use and decorate their walls. Sustainable building management and cost savings are key in our approach.

STAS was founded in 1995 by two brothers, Rien and André Stas, and today operates worldwide. The head office is located in Eindhoven, the Netherlands.

STAS minirail is characterised by its extremely slim, narrow design and innovative mounting method.

The rail itself is just 16 mm in height, yet it can carry up to 25 kg per linear metre. Thanks to an innovative screw, the STAS clipscrew, the rail can easily be fixed to the wall.

STAS minirail is perfect for creating an elegant, unobtrusive hanging system for light to medium-weight objects.

Features

- **Dimensions**: 9 x 16 mm
- **Length**: 150, 200 or 300 cm
- **Colour**: white or alu (more colours on request)
- **Material**: aluminium
- **Installation**: wall mountable, not adjoining to ceiling
- **Weight capacity**: 25 kg/m²
- **Warranty**: 5 years

For matching hooks and cords, see page 26.

STAS cliprail is a high-quality picture hanging system without bells and wistles. It is easy to install and feels right at home in every interior.

The cliprail owes its name to the specially designed fastening clip - the STAS railclip - which allows easy fixation to the wall.

### Features

- **Dimensions**: 8.2 x 25 mm
- **Length**: 150, 200 or 300 cm
- **Colour**: white or alu (more colours on request)
- **Material**: aluminium
- **Installation**: wall mountable, not adjoining to ceiling
- **Weight capacity**: 20 kg/m²
- **Warranty**: 5 years

For matching hooks and cords, see page 26.

STAS cliprail max
perfect gap-free ceiling connection

STAS cliprail max is a hanging system for the perfectionist. An extra rim ensures the rail connects beautifully with the ceiling. With this system, your ceiling, wall and picture hanging system unite as one.

The rail is most attractive when fixed to flat ceilings. STAS cliprail max owes its name to the specially designed fastening clip - the STAS railclip - which allows easy fixation to the wall.

For the best result, you can neatly finish the transition between the STAS cliprail max and the ceiling by adding an (acrylic) sealant.

Features

- Dimensions: 8.3 x 31.6 mm
- Length: 150, 200 or 300 cm
- Colour: white or alu (more colours on request)
- Material: aluminium
- Installation: wall mountable, adjoining to ceiling
- Weight capacity: 25 kg/m²
- Warranty: 5 years

For matching hooks and cords, see page 26.

STAS cliprail pro is ideal for hanging heavier objects on walls thanks to its thick-walled profile. This rail can carry an amazing 45 kg per linear metre.

Despite its large weight-bearing capacity, the STAS cliprail pro is an elegant, unobtrusive rail that can be used in professional environments as well as in the home.

STAS cliprail pro owes its name to the specially designed fastening clip - the STAS railclip - which allows easy fixation to the wall.

STAS plasterrail
for the forward thinker

Practically invisible, but by no means less functional. STAS plasterrail is the only picture hanging system in our range which can be fully integrated into a new stucco wall. So it’s ideal for new-build projects and renovations.

The steel rail is fixed to the bare wall. After plastering, only a small opening of approximately 4 mm is visible in the stucco. Cords specially designed for the plasterrail can then be hooked in through this opening.

To prevent from any plaster entering the rail during plaster work, a cord must be placed in the rail opening before the work begins.

- STAS plasterrail plaster cord RS30260
The design of STAS j-rail was based on the shape of the letter J. This shape allows the rail to be combined in all kinds of different ways using hooks, cords and even rods.

For example, by using a rod instead of a cord or steel cable, moving or alternating works of art on high ceilings becomes a piece of cake. You won’t need a ladder, because the rod can be lifted out of the rail from below.

STAS j-rail has a somewhat industrial look and is applied regularly in art galleries and in business premises.

**Features**

- **Dimensions**: 7 x 20 mm
- **Length**: 150, 200 or 300 cm
- **Colour**: white or alu (more colours on request)
- **Material**: aluminium
- **Installation**: wall mountable, not adjoining to ceiling
- **Weight capacity**: 25 kg/m²
- **Warranty**: 5 years

STAS
STAS j-rail max
heavyweight champion

STAS j-rail max is designed for the heavy objects. The thick-walled aluminium profile is capable of supporting loads of up to 100 kg per linear metre.

What’s more, STAS j-rail max is combined with rods instead of cords, which makes alternating and moving heavy works of art on high ceilings a piece of cake. You won’t need a ladder, because the rod can be lifted out of the rail from below.

The STAS j-rail max system is also available with theft-delaying security hooks and is often used in art galleries and museums.

Features

Dimensions 9 x 20 mm
Length 150, 200 or 300 cm
Colour white or alu (more colours on request)
Material aluminium
Installation wall mountable, not adjoining to ceiling
Weight capacity 100 kg/m
Warranty 5 years

STAS u-rail
suspended ceiling becomes hanging system

STAS u-rail is specially designed for suspended ceilings. The rail is easily and almost invisibly attached to the supporting edge trim of the suspended ceiling.

STAS u-rail is also ideally suited for hanging whiteboards, art or large maps. So now, with just a small modification, your suspended ceiling becomes a versatile picture hanging system, ideal for use in offices, schools and healthcare facilities.

Features

- **Dimensions**: 14 x 6.5 mm
- **Length**: 150, 200 or 300 cm
- **Colour**: white, black or alu (to match the edge trim)
- **Material**: aluminium
- **Installation**: ceiling mountable
- **Weight capacity**: 20 kg/m²
- **Warranty**: 5 years

For matching hooks and cords, see page 26.

(8 holes per m²)
In addition to aluminum rails, STAS also offers wooden rails in 2 different models. The STAS windsor is elegant and warm where the STAS riva has a more robust look and feel. Two distinctive models, suitable for any interior! Both models are easy to use and each has a different profile for which fitting hooks are available.

Our wooden rails are made out of Ayous wood and are FSC and PEFC certificated. Ayous wood differs from other wood since it does not deform or splinter, and is perfectly suitable to repaint because of its smooth texture. Perfect wood for your picture hanging system! Can be mounted screwed, nailed and glued*.

* The weight capacity of a glued rails is highly dependent on the surface, so care must be taken here. More information on how to best glue our wooden rails can be found on our website www.stasgroup.com

From now on, curved walls can also be used optimally with the STAS evoluon! The STAS evoluon has been specially developed for curved walls, but this rail is just as easy to mount on straight walls or (slightly) undulating walls.

The rail is bendable and can be bent perfectly proportional along the contours of a wall by means of a supplied auxiliary tool. In this way, the STAS evoluon provides hanging possibilities for difficult and walls otherwise unusable for picture rails.

### Features

no stress with the STAS drywallXpress

With the STAS drywallXpress you can mount a picture hanging system on a plaster wall in no time. No need to pick up that drill because you only need your hands to assemble this system. The STAS drywallXpress is a complete picture hanging system that consists of clips, rail and an auxiliary tool. With the help of the enclosed tool you can push the metal clips into your plaster wall just a little easier. Click the rail onto the clips and combine this picture hanging system with the STAS cords with cobra.

STAS drywallXpress: the easiest picture hanging system in the world!

A STAS multirail system is a picture hanging system and artwork lighting rolled into one.

Inside the rail, 12 V wiring (low voltage) has been integrated. Various matching light fixtures can then be clicked into the rail at any position you choose, accentuating your wall decorations. In combination with LED lighting, the STAS multirail is very energy efficient.

Features

- **STAS multirail conductor 12 V corner**
  - VF50100
A STAS multirail system is a picture hanging system and artwork lighting rolled into one.

Inside the rail, 12 V wiring (low voltage) has been integrated. Various matching light fixtures can then be clicked into the rail at any position you choose, to accentuate your wall decorations.

STAS u-rail multi is purpose-designed for suspended ceilings. The rail is easily and almost invisibly attached to the supporting edge trim of the suspended ceiling. STAS u-rail multi also offers a perfect solution for hanging whiteboards, art or large maps.

**Features**

| Dimensions | 17.3 x 13.4 mm |
| Length | 200 or 300 cm |
| Colour | white, black or alu (to match the edge trim) |
| Material | aluminium |
| Installation | ceiling mountable |
| Weight capacity | 30 kg/m² |
| Voltage | 12 V (low voltage) |
| Adapter | 18 W, 60 W, 96 W |
| Warranty | 5 years on rails, 1 year on accessories |

For matching hooks and cords, see page 26. For matching accessories, see page 22 to 24.

STAS multirail accessories
fixtures

STAS offers a choice of 4 different light fixtures in various lengths. Your choice depends on your personal preference and on the size of the artwork you wish to illuminate. Every light fixture fits on all multirail systems.

**Tips**

- The bigger the distance between light source and wall, the bigger the artwork that can be illuminated. In other words: choose a large fixture for lighting a large work of art.
- Is your wall 270 cm high or higher? We would recommend installing a fixture of 70 cm.

**Adjusting**

All fixtures have a flexible or hinged part with which small adjustments to the beam angle can be made.

1 year warranty applies to all multirail accessories.

STAS offers 3 different LED spotlights. Your choice depends on your personal preference in terms of energy efficiency, light colour, warmth radiation and the shape and intensity of the light beam. All spotlights fit on all light fixtures. 1 year warranty applies to all multirail accessories.

STAS LED spot 3.5 W / 27°
Emits a narrow beam of light suitable for small paintings.

STAS LED spot 3.5 W / 95°
Emits a wide beam of light suitable for large artworks.

STAS powerLED 4 W matt
The closed housing avoids light spill at the back.
STAS multirail accessories
adaptors

The choice of an adapter depends on 3 things:

1. the type of spotlight you’d like to use
2. the number of spotlights you’d like to install
3. the number of metres of rail you’d like to install

View the tables below for the best choice.

Using multiple adapters
In case you would like to use more than the below mentioned number of metres or spots, you will have to use multiple adapters.

CAUTION:
Create independent circuits when using more than one adapter! Adapters must never be connected, neither directly nor indirectly. In short: NEVER connect two rail segments that are each connected to a different adapter! Exclusively connect rail segments that share one adapter.

Dimming of light
The current STAS adapters are not yet dimmable. We strongly advise against connecting your own switch or dimmer to the system. Be aware that if you do this anyway, all system warranty expires.

</table>
A STAS magnet set consists of a steel cable with cobra and five or ten magnets. Hook the steel cable into your STAS rail. Using the magnets, you can then hang photos, cards and memos on the cable. It’s ideal for Christmas cards, birthday cards, to-do notes or temporary displays.

STAS offers a choice of three magnet sets: white, coloured or 2-in-1.

The white and coloured variants of the STAS magnet set cannot be combined with STAS wooden rails, STAS j-rail (max), STAS evoluon and STAS plaster rail. The 2-in-1 variant can be combined with all STAS rails except for STAS j-rail max, and STAS evoluon.

**STAS magnet set**

The standard STAS magnet set consists of a steel cable with cobra and ten white tripod magnets.

**STAS coloured magnet set**

The STAS coloured magnet set consists of a steel cable and ten cone-shaped magnets in five different colours.

**STAS magnet set 2-in-1**

The STAS magnet set 2-in-1 can be used in two different ways. Hook the cable into your STAS rail with the cobra or hang it with a loop onto an edge panel hook or any other hook. This set comes with five cone-shaped magnets in five different colours.

The STAS qubic is a compact and square hanging system, suitable for hard walls such as stone or concrete. Do not underestimate the STAS qubic by its size, because that is exactly what’s so convenient about this hanging system.

The STAS qubic is suitable for one hanging point and can be easily installed in the more difficult places. Think of a stairwell, a slanted ceiling or a pillar. The STAS qubic can be mounted in many different ways and therefore the cords can also be hooked in many possible ways.

The versatility of the STAS qubic makes it an indispensable hanging system for difficult places.

**Features qubic**

- **Dimensions**: 22 x 22 x 24 mm
- **Colour**: alu textured
- **Material**: aluminium
- **Installation**: ceiling- and wall mounting
- **Weight capacity**: 15 kg
- **Warranty**: 5 years

For matching hooks and cords, see page 31. See page 42 for combining with STAS v-tense & h-tense.

**Parts**

- STAS qubic TCS1000
- STAS qubic endcap black TCS9002
- STAS screw qubic SJ30200
- STAS plug SR50700
The STAS qubic pro works the same as the STAS qubic, but is suitable for soft walls such as plaster and sand-lime brick. The mounting plate can be installed with 2 screws which provides extra reinforcement of the STAS qubic pro in the soft wall.

Features qubic pro

- **Dimensions**: 50 x 50 x 28 mm
- **Colour**: alu textured
- **Material**: aluminium
- **Installation**: ceiling- and wall mounting
- **Weight capacity**: 20 kg
- **Warranty**: 5 years

For matching hooks and cords, see page 31. See page 42 for combining with STAS v-tense & h-tense.
**STAS v-tense & h-tense**

combine endlessly

The tensioned cable system can be used flexibly and mounted on walls or ceiling. Horizontally, vertically and diagonally! The possibilities in combination with the STAS qubic, the STAS evoluon and the other STAS rail systems are therefore endless. Consider, for example, applications for the creation of shop windows, the presentation of houses in the real estate sector, displaying menus in restaurants or hanging material in schools or in the office.

**STAS v-tense (vertical)**
The STAS v-tense is, together with the STAS h-tense, part of the tensioned cable system assortment. The STAS v-tense can be used vertically and is equipped with a glider on both sides. The cables are easy to tighten. In addition, an extra spring has been added to the STAS v-tense so that the wire still offers enough elasticity to hook into a rail with a hook. The STAS v-tense can be combined with various STAS rail systems, the STAS qubic and the STAS evoluon to easily create a wall presentation.

* Also available in a version with a glider on one side and a STAS cobra on the other for hanging options with a STAS rail.

---

**Features v-tense**

- **Dimensions**: 26 x 3 mm
- **Length**: 150, 300, 450 cm
- **Colour**: alu structure
- **Material**: aluminium
- **Installation**: wall- and ceiling mounting (in combination with the STAS rail, STAS evoluon and STAS qubic)
- **Warranty**: 5 years

---

**Content**

- **STAS v-tense**
  - TSBV150 150 cm
  - TSBV300 300 cm
  - TSBV450 450 cm

Consult the separate product sheet for combinations and options.
**STAS h-tense** (horizontal)
The STAS h-tense is, together with the STAS v-tense, part of the tensioned cable system assortment. The STAS h-tense can be used horizontally and is equipped with a glider on both sides. The wire is easy to tighten. The STAS h-tense can be combined with the STAS qubic to easily create a wall presentation.

**STAS h-tense**

- TSBH150 150 cm
- TSBH300 300 cm
- TSBH450 450 cm

Consult the separate product sheet for combinations and options.
STAS frame clamp (4.5 mm)
The STAS frame clamp can be screwed onto a tensioned wire. When 2 tensioned wires are mounted next to each other with both a STAS frame clamp, a frame or other material (minimal 1 mm and maximal 4.5 mm thick) can be clamped between them.

STAS frame connector (4.5 mm)
The STAS frame connector can be screwed onto a tensioned wire. The double opening allows several frames or other material (minimal 1 mm and maximal 4.5 mm thick) to be placed next to each other.

STAS tense-frame
The A4 size frame comes with 4 STAS frame clamps (4.5 mm). When 2 tensioned wires are mounted next to each other, the STAS tense frame can be placed between these wires. The frame can be opened at the top so that material can be placed inside. Think, for example, of applications for advertisements or the presentation of houses in real estate. The frame can be closed magnetically.

STAS frame clamp (8.5 mm)
The STAS frame clamp can be screwed onto a tensioned wire. When 2 tensioned wires are mounted next to each other with both a STAS frame clamp, a frame or other material (minimal 4 mm and maximal 8.5 mm thick) can be clamped between them.

STAS frame connector (8.5 mm)
The STAS frame connector can be screwed onto a tensioned wire. The double opening allows several frames (minimal 4 mm and maximal 8.5 mm thick) to be placed next to each other.

STAS shelf clamp (8.5 mm)
The STAS shelf clamp can be screwed on the STAS steel cable with glider (p.31). When 4 sets of STAS steel cables with glider are mounted with 4 STAS shelf clamps, a STAS shelf can be placed in between to create shelves.

STAS shelf connector (8.5 mm)
The STAS shelf connector can be screwed onto the STAS steel cable with glider. Thanks to the double opening, several STAS shelves can be placed next to each other in order to create shelves.

STAS shelf
The STAS shelf is a plexiglass shelf of 20 x 30 cm. With the help of 4 STAS shelf clamps, this shelf can be attached to 4 sets of STAS steel cable with glider (p.31) in order to create shelves. (other dimensions available upon request)
STAS security hook
The STAS security hook is a hook that can be used with the STAS v-tense. The STAS security hook can be placed before as well as after mounting the tensioned wire by means of a rotary wheel behind the hook.

STAS signage clip
The STAS signage clip can be screwed onto a STAS steel cable with glider and then placed in the STAS qubic. Signs with a minimum thickness of 2 mm and a maximum of 7 mm can be clamped in the STAS signage clip.
* Can also be used with STAS steel cable with loop and STAS drop ceiling hook.

STAS metal clips
These metal clips are suitable for hanging various materials on the STAS h-tense. Think of hanging alphabet letter tiles, posters, drawings, decorations, all kinds of papers and light objects.

STAS tense LED frame
The A4 size LED frame comes with 4 attached clamps. When 2 tensioned wires are mounted next to each other, the STAS tense LED frame can be placed between the wires. Material can be placed in the frame by removing and replacing a transparent magnetic plate.

STAS tense 12V power (60W)
The STAS tense 12V power is an adapter that can be used to power the STAS tense LED frame with 60W power. A maximum of 12 LED frames* can be connected to this adapter.

* max. 12 LED frames connected on 2 tensioned wires. If you want to use more than 12 LED frames and / or more than 2 tensioned wires, it is necessary to use multiple adapters.

Applications

STAS frame clamp (4.5 mm)
STAS frame connector (4.5 mm)
STAS frame clamp (8.5 mm)
STAS frame connector (8.5 mm)
STAS shelf clamp (8.5 mm)
STAS shelf connector (8.5 mm)
STAS signage clip
### Options STAS v-tense

STAS qubic ceiling mounting, STAS shelf clamp & STAS shelves

Options STAS h-tense

STAS h-tense, STAS qubic, STAS metal clips, alphabet letter tiles

STAS h-tense, STAS qubic, STAS tense frame & STAS frame clamps
STAS papergrip is one rail with two applications. Thanks to a handy internal strip, papers can be easily clipped into the rail or removed. In addition, cards (etc.) can be placed in the special ledge on top of the rail.

STAS papergrip is suitable for thick and thin paper and it can even grab hold of thin magazines and laminated paper. Separate rail pieces can be connected to create a hanging system spanning the entire wall.

Optional: click specially designed STAS papergrip hooks onto the rail to hang up additional small items, like keys, or for example a STAS magnet set 2-in-1. A STAS papergrip hook has a weight capacity of 3 kg.

### Features

- **Dimensions**: 13.3 mm x 45 mm
- **Length**: 50, 100, 150 or 200 cm
- **Colour**: white, white textured, black textured or alu textured (more colours on request)
- **Material**: rail: aluminium with powder coating inside strip: polyurethane foam core and polyethylene coating layer
- **Installation**: standard with railclips (3 per metre) optional with magnetic tape or double-sided tape
- **Warranty**: 5 years

- **STAS plug**
  - SR50700
The STAS papergrip hanger has been specially developed for hanging a whiteboard (with a max. size of 90x120 cm) on the STAS papergrip (mounted with screws), by means of 2 STAS papergrip hangers. The hangers are attached to the whiteboard with screws and then placed on the STAS papergrip, after which the whiteboard is easy to install and move. In addition, the hanger is equipped with a safety lock, so that it cannot be pushed out of the rail when force is exerted on the whiteboard. By mounting stabilizing caps the whiteboard remains stable. This makes the STAS papergrip hanger very suitable for the safe hanging of a whiteboard in educational institutions.

In addition to the whiteboard, other objects can also be hung on the STAS papergrip hanger. For suspending light items such as a small clock, the hanger can be attached with double-sided tape.
STAS name tag
a place for every name

The STAS name tag is a clip that can be clicked on the STAS papergrip. Paper can be placed inside this clip. With the STAS name tag, the names of the children can be displayed in the classroom or in your home*.

* Templates for printing out the name cards are available on request. Please contact our sales department for more information.

Hanging pictures by means of hook and loop fasteners? Does that work? Yes, it does! In fact, STAS wall strip is ideal for hanging pictures stably and horizontally, as well as for creating wall collages.

Stick the hook and loop stickers to the back of your picture frame. Then hook the wall strip into your STAS rail* by its cobra hook. Finally, simply “stick” the frame onto the wall strip. The remainder of the strip can easily be cut off.

STAS wall strip makes a statement on your walls and doesn’t try to hide from sight. Feel free to play with the options: hang pictures from two strips, create collages or stick other objects, like cards, to the strip.

* With the exception of the STAS wooden rails, STAS j-rail (max), STAS evoluon and STAS plaster rail.

STAS paperrail
marbles put to good use

STAS paperrail is an aluminium rail for hanging up loose papers. The rail contains glass marbles, which press against the paper, creating a handy clamping mechanism.

You can slide drawings, announcements and photos into the rail with a single move and remove them again without any damage to the paper. Papers can also be placed on top of the rail.

Ideal for use in classrooms, offices, restaurants and even at home above the kitchen table.

The STAS paperrail is mounted directly onto the wall.

Features

Dimensions 21 x 48.5 mm
Length 50, 100 or 200 cm
Colour white or alu (more colours on request)
Material aluminium
Installation wall mountable, not adjoining to ceiling
Weight capacity suitable for paper and cardboard
Warranty 5 years

Panel hooks offer a practical solution when you need to hang objects from wall panels, partition walls, doors, cornices, etc.

They are very easy to combine with STAS cords with a loop and a STAS zipper or STAS smartspring. This way, you can create a complete hanging system in an instant, but without the aluminium rail.

Products

STAS offers many different types of panel hooks:

- **STAS panel hook white 11 mm**
  - HW10300

- **STAS panel hook white 16 mm**
  - HW10400

- **STAS moulding hook gold**
  - HW60200

* Only available in combination with STAS perlon cord with loop and zipper.
STAS picture hits
invisible connection

STAS picture hits are transparent plastic clips that allow you to easily connect photos, cards and other lightweight decorative items to each other and to your STAS rail.

The first clip is screwed into your STAS rail. Then you can slide a photo, card or other decoration into the clip. By sliding a new STAS picture hit on the bottom or side, you can attach another decoration. Step by step, you can create your own unique collage.

STAS picture hits are ideal for temporary or changing decorations, for instance photos, Christmas cards, birthday cards, vacation snaps, streamers and other party or seasonal attributes.

Tip: place the transparent distance strips between the rail and your decoration to hang it a little lower, for example at eye level.

Features

- Colour: transparent
- Material: plastic
- Installation: to a STAS rail*
- Weight capacity: suitable for paper and thin cardboard
- Warranty: 5 years

* with the exception of STAS j-rail (max), STAS wooden rail, STAS plasterrail and STAS evoluon

Contents per set
- 20 STAS picture hits (clips)
- 2 STAS pet strips 50 cm (transparent distance strips)
Sometimes it’s a better idea to rest pictures and photo frames on something instead of hanging them up. That’s when the STAS set up comes in handy.

This stylish rail measuring 145 cm in length has a neutral design and can be used in many ways.

STAS poster strips and poster snaps
hanging without framing

**STAS poster strip**
The STAS poster strip is a classic poster strip in transparent plastic and is designed to lock posters into position so as to hang them neatly, simply and stylishly. The poster can be slid into the strip from the side.

**STAS poster snap**
The STAS poster snap is a more luxurious variant to the plastic poster strip, made from high-grade aluminium. This makes the system ideally suited for presenting canvases, fabrics and heavy posters without taking anything away from the style.

The poster does not have to be inserted from the side: simply click the STAS poster snap open and shut at the top and the bottom.

STAS suspended ceiling hooks

No more messing around with bending paper clips or tying strings. With the white STAS suspended ceiling hooks, you can hang up children’s crafts, festive decorations or lesson material to the suspended ceiling in an instant. All you need to do is slide the hook over the runners of the suspended ceiling.

STAS suspended ceiling hooks are available with an eyelet and with a hook.

STAS dibond hangers

STAS dibond hangers are self-adhesive steel plates with a hook, which can be affixed onto the back of flat panels. That way, the panel is equipped with a hook, with which it can then be suspended from a picture hanging system.

Extremely suitable for art and photos on dibond or mirrors and frames with a dibond backside.
The STAS clocktica is a silent design clock that can be hooked into almost any STAS picture rail system.* The clock works on batteries and is made of sturdy steel. The STAS clocktica is suitable for educational institutions, for in the office or for your own home. Complete your interior with this flexible design clock!

* With the exception of the STAS wooden rails, STAS j-rail (max), STAS evoluon and STAS plaster rail.

**Features**

- **Dimensions**: 25 cm wide
- **Length**: 43 cm, 95 cm
- **Colour**: white textured, RVS, black textured
- **Material**: steel, powdercoated steel
- **Warranty**: 5 years

**Combi cap: 2 x end cap/1 x corner cap**
### STAS multirail crown
- **RC10420**: multirail crown white 200 cm (4 holes per m)
- **RC10430**: multirail crown white 300 cm (4 holes per m)
- **RH10420**: prorial crown white 200 cm (4 holes per m)
- **RH10430**: prorial crown white 300 cm (4 holes per m)
- **RO20500**: multirail crown connector white
- **RO20400**: multirail crown rail connector
- **VS0200**: multirail conductor 12 V straight
- **VS0100**: multirail conductor 12 V corner
- **SJ0100**: multirail screw
- **SR50700**: plug 6 x 30 mm hard / soft wall

### STAS multirail flat
- **RC10520**: multirail flat white 200 cm (4 holes per m)
- **RC10530**: multirail flat white 300 cm (4 holes per m)
- **RH10520**: prorial flat white 200 cm (4 holes per m)
- **RH10530**: prorial flat white 300 cm (4 holes per m)
- **RO20500**: multirail flat connector white
- **RO20400**: multirail flat rail connector
- **VS0200**: multirail conductor 12 V straight
- **VS0100**: multirail conductor 12 V corner
- **SJ0100**: multirail flat screw
- **SR50700**: plug 6 x 30 mm hard / soft wall

### STAS u-rail multi
- **VP10200**: u-rail multi white 200 cm (8 holes per m)
- **VP10300**: u-rail multi white 300 cm (8 holes per m)
- **VP20200**: u-rail multi black 200 cm (8 holes per m)
- **VP20300**: u-rail multi black 300 cm (8 holes per m)
- **VS30200**: u-rail multi alu 200 cm (8 holes per m)
- **VS30300**: u-rail multi alu 300 cm (8 holes per m)
- **VS50200**: multirail conductor 12 V straight
- **VS50100**: multirail conductor 12 V corner
- **SP0100**: u-rail screw white
- **SP0100**: u-rail screw black
- **SP30100**: u-rail screw alu

### STAS multirail accessories
- **VA10500**: multirail fixture classic white 50 cm
- **VA10700**: multirail fixture classic white 70 cm
- **VA30500**: multirail fixture classic chrome 50 cm
- **VA30700**: multirail fixture classic chrome 70 cm
- **VA30365**: multirail fixture satin chrome 40 cm
- **VA30465**: multirail fixture satin chrome 50 cm
- **VA30665**: multirail fixture satin chrome 65 cm
- **VA30770**: multirail fixture signo chrome 70 cm
- **VL10200**: multirail LED spot 3.5 W 27°
- **VL10700**: multirail powered 4 W
- **VL10900**: multirail LED spot 3.5 W 95°
- **VT20500**: multirail adapter 18 W

### STAS hooks and cords for rail systems
- **STAS hooks and cords**
  - **HA30900**: smartspring (4 kg perlon)
  - **HA30501**: zipper (15 kg perlon + 20 kg steel)
  - **HA30530**: zipper pro (15 kg perlon + 20 kg steel)
  - **CP10110**: cobra + perlon cord 100 cm
  - **CP10115**: cobra + perlon cord 150 cm
  - **CP10120**: cobra + perlon cord 200 cm
  - **CP10125**: cobra + perlon cord 250 cm
  - **CP10130**: cobra + perlon cord 300 cm
  - **CP10140**: cobra + perlon cord 400 cm
  - **SC10110**: cobra + steel cable 100 cm
  - **SC10115**: cobra + steel cable 150 cm
  - **SC10120**: cobra + steel cable 200 cm
  - **SC10125**: cobra + steel cable 250 cm
  - **SC10130**: cobra + steel cable 300 cm
  - **SC10140**: cobra + steel cable 400 cm
  - **SC10220**: cobra + steel cable white 200 cm (10 kg perlon)
  - **SC20220**: cobra + steel cable black 200 cm (10 kg perlon)
  - **BM20330**: blitzer 2 x smart spring
  - **BM20340**: blitzer 2 x zipper
  - **BM20310**: blitzer 2 x cobra + perlon cord 150 cm
  - **BM20320**: blitzer 2 x cobra + steel cable 150 cm
  - **BM10280**: blitzer cobra+perlon cord 150 cm+smart spring
  - **BM10230**: blitzer cobra+perlon cord 150 cm+zipper
  - **BM10290**: blitzer cobra+steel cable 150 cm+zipper
  - **PK10100**: perlon cord on roll 1 m

### STAS j-rail hooks, cords and rods
- **STAS j-rail hooks, cords and rods**
  - **HA30900**: smartspring (4 kg perlon)
  - **HA30501**: zipper (15 kg perlon + 20 kg steel)
  - **HA30530**: zipper pro (15 kg perlon + 20 kg steel)
  - **PH10110**: perlon cord with disc 100 cm
  - **PH10115**: perlon cord with disc 150 cm
  - **PH10120**: perlon cord with disc 200 cm
  - **PH10125**: perlon cord with disc 250 cm
  - **PH10130**: perlon cord with disc 300 cm
  - **HR10000**: j rail cylinder hook white
  - **HR30000**: j rail cylinder hook alu
  - **SO10110**: j rail rod 3 mm white 100 cm
  - **SO10115**: j rail rod 3 mm white 150 cm
  - **SO10120**: j rail rod 3 mm white 200 cm
  - **SO10130**: j rail rod 3 mm white 300 cm
  - **SO30110**: j rail rod 3 mm alu 100 cm
  - **SO30115**: j rail rod 3 mm alu 150 cm
  - **SO30120**: j rail rod 3 mm alu 200 cm
  - **SO30130**: j rail rod 3 mm alu 300 cm

### STAS plastrail hooks and cords
- **STAS plastrail hooks and cords**
  - **HA30900**: smartspring (4 kg perlon)
  - **HA30501**: zipper (15 kg perlon + 20 kg steel)
  - **HA30530**: zipper pro (15 kg perlon + 20 kg steel)
  - **RS30270**: plastrail S hook chrome (for cord with loop)
  - **PA10150**: perlon cord with plasterrail hook 150 cm
  - **PL10110**: perlon cord with loop 100 cm
  - **PL10115**: perlon cord with loop 150 cm
  - **PL10120**: perlon cord with loop 200 cm
  - **PL10125**: perlon cord with loop 250 cm
  - **PL10130**: perlon cord with loop 300 cm
  - **SL10110**: steel cable with loop 100 cm
  - **SL10115**: steel cable with loop 150 cm
  - **SL10120**: steel cable with loop 200 cm
  - **SL10125**: steel cable with loop 250 cm
  - **SL10130**: steel cable with loop 300 cm

STAS products TÜV certified

STAS strives day after day for products of the highest quality. To guarantee the quality and independence of products, STAS has commissioned TÜV Netherlands for the testing of its products. TÜV Netherlands is an independent and recognized body that assesses the quality of products according to a set standard and has extensive experience in the field of product safety and product inspections. Under the direction of TÜV, a large part of our range of products has been tested for quality and correctness of the specified features. All products where the TÜV logo is shown, have actually been tested by TÜV Netherlands and approved for the capacity that is stated in the features of that product.
Important note regarding warranty and liability

Products of STAS must be installed and used only in strict accordance with the latest version of the STAS picture hanging systems installation guide, available for download at www.stasgroup.com. It is the responsibility of the installer to select the correct fasteners for the particular installation. Improper installation, misuse, misapplication or otherwise failing to completely follow seller’s instructions and warnings may cause product malfunction, property damage or personal injury.
