

STAS plasterboard rail

integrated ceiling rail

NEW

The STAS plasterboard rail is a built-in picture hanging system for rooms to be built or renovated with plaster, timber or concrete walls and plasterboard ceilings. The picture hanging system together with the wooden framework, is mounted under the beam layer on the wall.

Thanks to the 2 different profiles (9.5 mm / 12.5 mm), plasterboards with a thickness of 9 mm or 12 mm can be slid into the profiles of the STAS plasterboard rail. The result is a tightly finished room with an almost invisible picture hanging system that disappears into the shadow line of the plasterboards.

The STAS plasterboard rail can be used with the STAS cords with cobra.

Features

Dimensions	9,5 mm rail: 31 x 36 mm 12,5 mm rail: 34 x 36 mm
Length	200 cm
Colour	white (RAL 9016)
Material	aluminium
Installation	wall mountable
Weight capacity	25 kg/m ¹
Warranty	5 years

For matching hooks and cords, see page 26.
