

STAS papergrip hanger

secure hanging

The STAS papergrip hanger has been specially developed for hanging a whiteboard (with a max. size of 90x120 cm) on the STAS papergrip (mounted with screws), by means of 2 STAS papergrip hangers. The hangers are attached to the whiteboard with screws and then placed on the STAS papergrip, after which the whiteboard is easy to install and move. In addition, the hanger is equipped with a safety lock, so that it cannot be pushed out of the rail when force is exerted on the whiteboard. By mounting stabilizing caps the whiteboard remains stable. This makes the STAS papergrip hanger very suitable for the safe hanging of a whiteboard in educational institutions.

In addition to the whiteboard, other objects can also be hung on the STAS papergrip hanger. For suspending light items such as a small clock, the hanger can be attached with double-sided tape.

Features

Dimensions	3.5 x 9.5 cm
Colour	white
Material	steel with powder coating
Installation	to the product to be hung
Weight capacity	per hanger per meter: 20 kg (when papergrip is mounted with screws) papergrip hanger set: whiteboard of max. 90 x 120 cm
