

STAS windsor & riva

bring a piece of nature into your home

In addition to aluminum rails, STAS also offers wooden rails in 2 different models. The STAS windsor is elegant and warm where the STAS riva has a more robust look and feel. Two distinctive models, suitable for any interior! Both models are easy to use and each has a different profile for which fitting hooks are available.

Our wooden rails are made out of Ayous wood and are FSC and PEFC certificated. Ayous wood differs from other wood since it does not deform nor splinter, and is perfectly suitable to repaint because of its smooth texture. Perfect wood for your picture hanging system! Can be mounted screwed, nailed and glued*.

Experience the pleasant warmth of wood in your interior!

* The weight capacity of a glued rails is highly dependent on the surface, so care must be taken here. More information on how to best glue our wooden rails can be found on our website www.stasgroup.com
