STAS Wi-Fi smart LED

The STAS Wi-Fi smart LED is a smart LED lamp that can be used with a specific range of STAS fixtures. You don't have to be a technician to install this smart LED lamp, a good Wi-fi signal is simply enough. With the accompanying free app and connected to your Wi-Fi network, you can easily switch the STAS Wi-Fi smart LED lamps on and off. It is even possible to illuminate each painting individually with the desired light color and light intensity (2700K warm light > 6500K daylight). From a crisp light in the morning to a warm and cozy light in the evening. With the STAS Wi-Fi smart LED, the colors in your wall decoration come into their own even more beautifully.

The STAS Wi-Fi smart LED lamps are 100% continuously dimmable and that without the intervention of an external Hub. It is also possible to create groups for certain rooms and the lamps have a timer setting so that your lighting can be switched on and off automatically. As icing on the cake, the STAS Wi-Fi smart LED also supports voice control in combination with Amazon Alexa, Siri and Google Home.

	VL20300
Power	5 W
Output equivalent	30 W
Max. consumption	5 W

STAS fixtures for STAS Wi-Fi smart LED

These 3 different fixtures have been specially developed for the STAS Wi-Fi smart LED and the STAS multirail systems. The STAS Wi-Fi smart LED lamp can be easily mounted on a fixture with the supplied Allen key. You can easily click a fixture on a desired spot in the STAS multirail. The Classic fixture can only be adjusted in height and the lamp base can be turned. The Sirius fixture has a flexible part that allows you to make small adjustments in the direction of the light beam.
