

STAS plasterboard rail

integrated ceiling rail

The STAS plasterboard rail is a built-in picture hanging system for rooms to be built or renovated with plaster, timber or concrete walls and plasterboard ceilings. The picture hanging system together with the wooden framework, is mounted under the beam layer on the wall.

Thanks to the 2 different profiles (9.5 mm / 12.5 mm), plasterboards with a thickness of 9 mm or 12 mm can be slid into the profiles of the STAS plasterboard rail. The result is a tightly finished room with an almost invisible picture hanging system that disappears into the shadow line of the plasterboards.

The STAS plasterboard rail can be used with the STAS cords with cobra.

- dimensions 9,5 mm rail 31 x 36 mm
dimensions 12,5 mm rail: 34 x 36 mm
- length 200 or 300 cm
- aluminium
- white (RAL 9016)
- wall mountable
- weight capacity 25 kg/m
- 5 years warranty

STAS hooks and cords

After selecting a rail, choose a cord to hook anywhere into the rail and a hook to slide over the cord to the desired height.

The cords and hooks on this page can be combined with all STAS rail types, with the exception of the STAS wooden rails, STAS j-rail (max), STAS evoluon and STAS plaster rail.

Important note regarding warranty and liability

Products of STAS must be installed and used only in strict accordance with the latest version of the STAS picture hanging systems installation guide, available for download at www.stasgroup.com. It is the responsibility of the installer to select the correct fasteners for the particular installation. Improper installation, misuse, misapplication or otherwise failing to completely follow seller's instructions and warnings may cause product malfunction, property damage or personal injury.

STAS products TÜV certified

STAS strives day after day for products of the highest quality. To guarantee the quality and independence of products, STAS has commissioned TÜV Netherlands for the testing of its products. TÜV Netherlands is an independent and recognized body that assesses the quality of products according to a set standard and has extensive experience in the field of product safety and product inspections. Under the direction of TÜV, a large part of our range of products has been tested for quality and correctness of the specified features. All products where the TÜV logo is shown, have actually been tested by TÜV Netherlands and approved for the capacity that is stated in the features of that product.
