STAS multirail max

perfect gap-free ceiling connection

A STAS multirail system is a picture hanging system and artwork lighting rolled into one. Inside the rail, 12 V wiring (low voltage) has been integrated. Various matching light fixtures can then be clicked into the rail at any position you choose, to accentuate your wall decorations.

The STAS multirail max distinguishes itself thanks to the extra rim that ensures a tight fit against flat ceiling surfaces. With this system, your ceiling, wall and picture hanging system unite as one. Cables can be hidden behind the rim.

For the best result, you can neatly finish the transition between the STAS multirail max and the ceiling by applying an (acrylic) sealant.

INSTRUCTION

- dimensions 11,3 x 38,3 mm
- length 200 or 300 cm
- aluminium
- white or alu
- wall mountable, adjoining to ceiling
- weight capacity 45 kg/m
- 12 V (low voltage)
- adapter 18W, 36W, 84W
- 5 years warranty on rails, 1 year on accessories

For matching hooks and cords, see page 30.
For matching accessories, see page 26.

STAS hooks and cords

After selecting a rail, choose a cord to hook anywhere into the rail and a hook to slide over the cord to the desired height.

The cords and hooks on this page can be combined with all STAS rail types, with the exception of the STAS wooden rails, STAS j-rail (max), STAS evoluon and STAS plaster rail.

steel cable white or black + zipper or zipper pro

Important note regarding warranty and liability
Products of STAS must be installed and used only in strict accordance with the latest version of the STAS picture hanging systems installation guide, available for download at www.stasgroup.com. It is the responsibility of the installer to select the correct fasteners for the particular installation. Improper installation, misuse, misapplication or otherwise failing to completely follow seller's instructions and warnings may cause product malfunction, property damage or personal injury.

STAS products TÜV certified
STAS strives day after day for products of the highest quality. To guarantee the quality and independence of products, STAS has commissioned TÜV Netherlands for the testing of its products. TÜV Netherlands is an independent and recognized body that assesses the quality of products according to a set standard and has extensive experience in the field of product safety and product inspections. Under the direction of TÜV, a large part of our range of products has been tested for quality and correctness of the specified features. All products where the TÜV logo is shown, have actually been tested by TÜV Netherlands and approved for the capacity that is stated in the features of that product.
