

STAS papergrip

twice as handy

STAS papergrip is one rail with two applications. Thanks to a handy internal strip, papers can be easily clipped into the rail or removed. In addition, cards (etc.) can be placed in the special ledge on top of the rail.

STAS papergrip is suitable for thick and thin paper and it can even grab hold of thin magazines and laminated paper. Separate rail pieces can be connected to create a hanging system spanning the entire wall.

Optional: click specially designed STAS papergrip hooks onto the rail to hang up additional small items, like keys, or for example a STAS magnet set 2-in-1. A STAS papergrip hook has a weight capacity of 3 kg.

Features

Dimensions	13.3 mm x 45 mm

STAS products TÜV certified

STAS strives day after day for products of the highest quality. To guarantee the quality and independence of products, STAS has commissioned TÜV Netherlands for the testing of its products. TÜV Netherlands is an independent and recognized body that assesses the quality of products according to a set standard and has extensive experience in the field of product safety and product inspections. Under the direction of TÜV, a large part of our range of products has been tested for quality and correctness of the specified features. All products where the TÜV logo is shown, have actually been tested by TÜV Netherlands and approved for the capacity that is stated in the features of that product.

Important note regarding warranty and liability

Products of STAS must be installed and used only in strict accordance with the latest version of the STAS picture hanging systems installation guide, available for download at www.stasgroup.com. It is the responsibility of the installer to select the correct fasteners for the particular installation. Improper installation, misuse, misapplication or otherwise failing to completely follow seller's instructions and warnings may cause product malfunction, property damage or personal injury.
