STAS plasterrail

for the forward thinker

STAS has renewed the design of the STAS plasterrail! The STAS plasterrail is now even better in quality with its renewed design. You attach the aluminium rail to a bare wall with nails and after the rail and the rest of the wall have been plastered, a very narrow opening remains visible in the stucco. As a result, this picture hanging system can be fully integrated into a new wall to be plastered and is therefore virtually invisible.

The renewed design ensures flawless installation, requires only a thin plaster layer of +/- 6 mm and the supplied safety strip ensures that the picture hanging system remains free of stucco. An ideal picture hanging system for renovations and new construction projects!

- dimensions 6,4 x 40 mm
- length 200 cm
- aluminium
- layer thickness stucco 6 mm
- wall mountable, to be integrated into stucco
- weight capacity 15 kg/m
- 5 years warranty

Important note regarding warranty and liability

Products of STAS must be installed and used only in strict accordance with the latest version of the STAS picture hanging systems installation guide, available for download at www.stasgroup.com. It is the responsibility of the installer to select the correct fasteners for the particular installation. Improper installation, misuse, misapplication or otherwise failing to completely follow seller's instructions and warnings may cause product malfunction, property damage or personal injury.
