

STAS evoluon

bends along with you

From now on, curved walls can also be used optimally with the STAS evoluon! The STAS evoluon has been specially developed for curved walls, but this rail is just as easy to mount on straight walls or (slightly) undulating walls.

The rail is bendable and can be bent perfectly proportional along the contours of a wall by means of a supplied auxiliary tool. In this way, the STAS evoluon provides hanging possibilities for difficult places and walls otherwise unusable for picture rails.

- dimensions 20 x 3 mm
- length 200 cm
- aluminium
- alu
- wall mountable, not adjoining to ceiling
- weight capacity 20 kg/m
- 5 years warranty

Important note regarding warranty and liability

Products of STAS must be installed and used only in strict accordance with the latest version of the STAS picture hanging systems installation guide, available for download at www.stasgroup.com. It is the responsibility of the installer to select the correct fasteners for the particular installation. Improper installation, misuse, misapplication or otherwise failing to completely follow seller's instructions and warnings may cause product malfunction, property damage or personal injury.

STAS products TÜV certified

STAS strives day after day for products of the highest quality. To guarantee the quality and independence of products, STAS has commissioned TÜV Netherlands for the testing of its products. TÜV Netherlands is an independent and recognized body that assesses the quality of products according to a set standard and has extensive experience in the field of product safety and product inspections. Under the direction of TÜV, a large part of our range of products has been tested for quality and correctness of the specified features. All products where the TÜV logo is shown, have actually been tested by TÜV Netherlands and approved for the capacity that is stated in the features of that product.
