

# STAS j-rail max

## heavyweight champion

STAS j-rail max is designed for the heavy objects. The thick-walled aluminium profile is capable of supporting loads of up to 100 kg per linear metre.

What's more, STAS j-rail max is combined with rods instead of cords, which makes alternating and moving heavy works of art on high ceilings a piece of cake. You won't need a ladder, because the rod can be lifted out of the rail from below.

The STAS j-rail max system is also available with theft-delaying security hooks and is often used in art galleries and museums.

- dimensions 9 x 21 mm
- length 150, 200 or 300 cm
- aluminium
- white or alu
- wall mountable, not adjoining to ceiling
- weight capacity 100 kg/m
- 5 years warranty

### Important note regarding warranty and liability

Products of STAS must be installed and used only in strict accordance with the latest version of the STAS picture hanging systems installation guide, available for download at [www.stasgroup.com](http://www.stasgroup.com). It is the responsibility of the installer to select the correct fasteners for the particular installation. Improper installation, misuse, misapplication or otherwise failing to completely follow seller's instructions and warnings may cause product malfunction, property damage or personal injury.

### STAS products TÜV certified

STAS strives day after day for products of the highest quality. To guarantee the quality and independence of products, STAS has commissioned TÜV Netherlands for the testing of its products. TÜV Netherlands is an independent and recognized body that assesses the quality of products according to a set standard and has extensive experience in the field of product safety and product inspections. Under the direction of TÜV, a large part of our range of products has been tested for quality and correctness of the specified features. All products where the TÜV logo is shown, have actually been tested by TÜV Netherlands and approved for the capacity that is stated in the features of that product.
